11. Your two valuable suggestions for enrichment of the syllabus 273 responses Good Nothing Excellent No Good syllabus Very good Publication of results in proper time 1. Integrate more real-world case studies and practical projects into the syllabus to enhance application of concepts. 2. Offer additional resources like guest lectures or workshops to expose students to diverse perspectives and emerging trends in the field. Syllabus is good By arranging group discussions, debate competitions, quiz contests and online seminars, students will get more interest in education, hence, engage more in the course of learning. Poor **Regular classes** Syllabus study our good facility teacher need . Syllabus added our GK/GS compulsory subject paper need every semester Average Please provide book Syllabus is very good. But available of study material is poor. Providing sufficient Study material to the students.

Syllabus should not be burden for students.

We need to sufficient Study material

Good and limit syllabus

Coverage of syllabus

Please provide efficient and on topic knowledge about the topic we learns in class.

There should be more school internship programme.. atleast 3-4 months in 4 year course so that each student will effectively efficient in teaching process..

Availablity of books in library
 Vast Hard curriculum

Provide basic information, and describe the prerequisites of the courses

Good

1. Provide basic information. 2. Describe the prerequisite of the course.

The participation of students during teaching should be enhanced and encouraged.

Students should get more concrete examples to understand the concept more deeply.

Please pratical purpose enhance need

More current update is best for the subject Correct information

my two valuble suggesdtions .1-the syllabus is a courses planning tool ., 2-It helps the instructor prepare and organize the course .

Teacher must be active in department what's app group

Time management and all classes must be complete on time.

1- The class teacher should maintain the attendance.

2- The teachers should explain the syllabus in a simple method and a interesting way.

- 1.Laboratory base discussion
- 2. Case studies

increase grammar

Overall good

Include Education life in Syllabus Encourage for the future employment They should give proper notes so it will be easy for us to study

Nthng

1-extra learning and self education2- providing employability

(1):- Good study room(2):- Available teachers

1. A new part added by general knowledge

2. State and national level GK

Should be a bit more compact Quantity should be reduced in some papers

Good

Learning is very good and experiment is excellent

1. Include more rather than less material.

2. A detailed syllabus is a valuable learning tool for students and lessens their initial anxieties about the course. Use ...

Santali

Digital classes and PDF notes

I have no words

Proper availability of material

Course should provide mora practical knowledge Course should add life skills, finance,health education, new skills

Complete the syllabus in time.

Proper timing of classes and more interaction with teachers and exploring the syllabus more deeply.

Focuses more on deeper concepts

Yes

It's all good.

Assignments should be more practical and short

1- Need UGC NET Syllabus

2- Need All Book Only Olchiki Script

Better teaching skill of teacher

It is good enough no need to change or addition.

I am satisfied with our curriculum so nothing else i want

Hygiene and library

Use of technology like presentation about a topic will be picture full will make more interest on the topics.

1. Provide basic information

2. State the general learning goals and objectives

Ad the more courses Santali books are made available in the library

Clarify students about the course ,

Shortage of time

In the current syllabus, we are learning about rock petrography in 1st sem and about minerals in 2nd sem that need to alter and some syllabus related to further competative examination like NET, GATE and other exams syllabus should be added to a portion that students will gain help from it..

1.It has to be the right time. 1.Must be on time to class

VERY GOOD

No comments

Available book provide in the college library

1) Reduce some course from the vast syllabus.

1.Smart class room 2.field study

Institute need to put less burden on students of 6th semester

Syllabus of the very good

Regular classes

1. Latest topic update.

2. Discussion related to current scinerio.

This is my last semester, I don't have any upcoming syllabus.. Thanks

Helpfull

There is no need for any suggestions

Needs of more valuable subjects Good teaching method

1.Increase class hours 2.

We should conduct more experiments

Syllabus are very vast ,and too very nice

The teacher gives their valuable time to complete the syllabus.But the time period is very short to complete it.

Syallabus to be decreased

Everything is perfect

Everything is ok

Overall it's a 10 on 10

Over all it's 10 on 10

Overall it's 8 out of 10

Drinking water availability and proper clean toilet

Syllabus are too vast Syllabus is too good

Syllabus is too vast Syllabus is too good

Syllabus should be not that much & hard

Syllabus should not be that much vast and hard

More books should be available in library. There should be a placement cell

## I

10. Your two valuable suggestions for enrichment of the syllabus

71 responses

Syllabus should be designed according to NEP-2020

P.G. syllabus should be upgraded so that students can crack various national level entrance exams like CSIR NET, UGC NET, IIT JAM, TIFR, GATE etc easily.

The current syllabus is fine but with respect to the concerned syllabus if the class duration can be increased it would be better.We are teaching UG 1st,2nd and 3rd Year,PG 1 st and 2nd year but we are having only two classrooms to teach.It would be better if our department is alloted with atleast one more classroom.The current syllabus is fine but if some fundamentals of Group Theory and Nuclear Chemistry is added in UG syllabus then it would be better.

Syllabus should be based in accordance to the various entrance examinations like IIT-JAM, CUET, NET & GATE etc for higher studies. Skill based topics and topics which give basic idea or encourage students for the preparation of Civil Services.

By enhancing exposure and research based learning and value addition classes ,we would be able to enrich the syllabus.

1-Regional History should be included in the syllabus

To modify syllabus time to time

Appointment of faculty and resource room for Int. B. Ed.

More numbers of classes need to be alloted to complete the syllabus in depth and in a elaborate way.

1.Make syllabus similar to that of UGC-NET syllabus 2.PhD holder faculties should be engaged in teaching the P.G. Students

My personal opinion is each 5 year change the syllabus

It needs to revamp the PG curriculum in respect of employability and in the field of application.

Satisfied

Not necessary,

1. The works in the field of Hindi literature by new writers/ poets to be added in the current syllabus.

2. More focus to be given to bring good social changes by writing on social issues.

Syllabus should be designed according to NEP-2020

75 percentage attendance mandatory for students, Digital class room for each department .

75 Percentage attendance Mandatory for students, Digital class room for each department.

Satisfactory

1.Need more time specially for PG 4th Semester and UG 6th Sem.2.Some Map work Should be given.

Needed to add field studies in curriculum.
 Provide Smart classes to departments

1. Monthly or bi-monthly assignment as conducive to departments, for formative assessments.

2. Requirement of interdisciplinary approaches and map works in syllabus.

syllabus should be framed on conceptual n research fields. should be focused on field survey ;sustainable development, climate change, ecosystem and conservation of nature and natural resources.. along with modern technological approach..

1. Objective questions should be included in PG exam.

2. Nano science and nanochemistry should included as per NET syllabus.

NA

1. Syllabus design should be according to CSIR NET

2. Extra class rooms should be allotted for UG students

Syllabus is a improvised version in comparison to the earliest syllabus. I think no modification is required.

As per the syllabus are very good.

Syllabus is bulky,few units have to be reduced. If it happens then students will get academic justice.

Study materials in the library be up dated and students must read the textbook Students attendance in class must be improved.

1. Syllabus requires in more details about any topic for better learning.

2. It would be better if practical syllabus is given with protocols.

1 syllabus should be useful for the students in competative exam Basic concepts of technology & Computer

Good syllabus

Add entrance exam related syllabus.

1.Incorporation of Interdisciplinary Approaches:

Integrate elements from different disciplines to provide a more holistic understanding of the subject matter

2.Emphasis on Experiential Learning:

Enhance the syllabus by incorporating experiential learning opportunities such as field trips, lab experiments, internships, or service-learning projects. These activities allow students to apply theoretical knowledge in real-world settings, thereby deepening their understanding and retention.

Organization of co- curricular activities

Syllabus must be changes and reserch innovation work included

1. Regular Updates and Interdisciplinary Integration: Periodically update the syllabus to ensure it reflects current trends, technologies, and advancements across multiple disciplines. This approach not only keeps the content relevant but also broadens students' perspectives by showing the interconnectedness of various fields. For instance, integrating environmental science with literature, business, and economics can provide a more comprehensive understanding and prepare students for real-world challenges. Regular updates, possibly annually or biannually, will help maintain the syllabus's relevance and applicability.

2. Innovation and Real-World Applications: Design the syllabus to foster innovation and critical thinking, moving away from rote learning. Incorporate project-based learning activities and real-world applications that encourage students to think creatively and develop practical solutions. This can include hands-on projects, collaborative activities, and partnerships with local businesses or organizations. By working on open-ended projects and original research, students can apply their knowledge in innovative ways, preparing them for future careers and real-world problem-solving.

Need to reduce the syllabus and design according to UGC NET syllabus.

Syllabus should be included some field study and case study.

1.Syllabus needs to incorporate an interdisciplinary approach more at P.G level. 2. A text/fiction that appears in multiple volumes in PG English syllabus, in a single unit of a paper, needs to be dropped as they demand indefinite period of reading which is difficult for the students in a time bound curriculum due to which they resort to reading secondary references only.

3. Translation Studies, Cultural Studies, Anthropocentric Studies and more Third World Country literatures need to be included in both UG and P.G syllabus.

Syllabus need more practical approach then theorical

1.Syllabus gatherd all the vital information about class in one place 2.Give an overview of the course's purpose.

Syllabus may be in Applied methodology.

Syllabus should be prepared with availability of books.

1.need base topics 2.vocational teachings to be added in syllabus.

good and excellent

\*syllabus should be more precise \*it should be more practical oriented

Skill development courses should be introduced with giving priorities to the practical experiences.

More study material should be provided.

I would like to put my concerned on computer lab, where our student can instill new materials, ideas, knowledge for thier semester project work and academic performance as well. As you know, all students do not have laptop/computer. Thank you.

Introduction of column and essay writing on various current issues in a special session for students and rewarding the best of them. Study tour to various national library once in a year.

1. A few topics may be included in the syllabus to cater the needs of students to prepare for national level competitive examinations.

1. PG syllabus should be changed

2. If it change students will get more benefit for crack NET-JRF, PGT and other Lectureship exam.

Requirements for smooth conduct of practicals must be fulfilled. Students must avail the opportunity to explore knowledge outside their academic curriculum by conduct of seminar/ webinar/ industrial exposure.

New psychological concept and it's application

Syllabus should be project oriented and practicable

1-Topics shouldn't be ambiguous, rather should be specific. In DSE-III description of plant and economic importance of plants are mentioned, there plant name are not specific. 2-Distribution of content should be equal among the units of a paper.

3- Too much system of classification is mentioned in taxomy paper, instead more families should be included.

Easy availability of study materials will be more better

Syllabus topics should be related to entrance exams like IIT JAM and NET.

1. Curriculum of PG and UG should be revamped.

2. Reference books of latest edition should be availabe in the library

Resource room and appointment of sufficient faculties for Int. B. Ed for smooth conducting of syllabus

1.Teacher should be extra careful to promote Knowledge,Understanding,Application And skill in education.Practicability should be given emphasized.

2.Friendly environment and other democratic elements should be promoted to ensure the excellence of the students.

Syllabus and curriculum are well conversant with JAM and NET. Still more improvement required for PG SYLLABUS

Very good

1:More inter departmental literary competition should be encouraged. 2:Syllabus related exposure visit /study tour

1. Regional History should be emphasized

2. History teaching should be in practical format

The syllabus can be more dynamic and task oriented for the students.

Topics must have a natural flow

Curriculum should be chid centric Curriculum should be framed based on self study and learning by doing

1. Research, industry, and employment based programs or lessons should be incorporate in the curriculum.

2. Health, wellness and mental-emotional intelligence lessons should also be in include in the curriculum.

### 13. Your two valuable suggestions for enrichment of the syllabus

75 responses

Syllabus is good for students

1. It's my honest opinion and it may not be accepted by you but please change the faculties as they are not competent enough with the current style and trends of teaching and if possible then conduct some teacher training programs.

2. Please make a separate department of Integrated B. Ed.

Good learning

Time to time

Provide basic information about the syllabus or course.

State the general learning goals or objectives.

Require more practical and analytical approach

1- Provide basic information .

2-Give an overview of the course's purpose.

We have 4 experienced faculties.

Modifying the syllabus and including more practical experience

Plz add oceanography and climatology in geology core

Some geophysics related topics should be added in the course corriculum .

Add some practical knowledge or field knowledge

Geology department was the best one With conceptual clarity, study materials in our time. I hope that thay will keep maintaining this level all through the years

Practical approach

The syllabus of my core subject (Geology) was enriched with knowledge. It was really helpful for my higher studies. If more new information about the latest technologies in this field could be added, it will be beneficial for everyone.

Need Skilled And Sufficient Faculty in Computer Science Department (Atleast 4 faculties )

Syllabus is good but some modifications are needed as it is not relevant for exams like JAM

The syllabus should be more oriented to all the National competitive examination syllabus.

As I am student of geology honours, geology subject required field work to develop our knowledge and strengthening our concept so the syllabus should include more field work

Syllabus is so excellent but the quality of teaching of guest faculty should be increase

Add more Field work within 3 yr syllabus.

Instead of teaching on blackboard, visual presentations can enhance the learning process

Induction of applied Geophysics and applied Geochemistry in detailed and in standard version instead of elementary and basics. The syllabus of Structural geology and Petrology should be modified to the standard of M.Sc. level syllabus of any National Institutes.

Conceptualized and good

Some syllabus from oceanography and atmosphere should be there .

More Fieldworks and basics software learning

The Indian philosophy & The Greek philosophy

.....

Take mock test regularlarly Take class through digital mode

1-must need skill based syllabus2-Goals and objectives of the syllabus

Should be competative exam (CSIR NET, GATE, GSI) based

Use of ICT in the teaching learning process

Practical knowledge should be given.

To teach jam orientated syllabus

More focus should be given on entrance orientated exam pattern rather than subjective theory based approach which will help students to crack different entrances for their higher study as well as getting jobs.

Very good syllabus

Important topics of GSI, net, gate examinations can be added for betterment

Very good

Students are encouraged to enhance their skills and knowledge and to become more scientific about decisions that need to be made

Providing basic information
 Give an overview of the course purposes

Modify need

Change The Faculty, Do supervise wheater classes are going on or not

It's all good.

Topics should be more diverse so that one can get benefits from it both in research sector and in government sector job examinations.

(i)A detailed approach towards higher study oriented exams will be more fruitful for the development and creation of a healthy competitive environment.(ii) A more field and experimental level approach is needed for better understanding of the subject.

Additional permanent faculty should be hired to ensure a smooth learning process.
 The laboratory should be enhanced to provide students with a higher quality learning experience.

1. The syllabus/curriculum should be based on IIT JAM, BHU, Pondicherry and other central universities. So, more number of students will be benefited and easily get a seat for post graduation in IITs and central universities.

2. High level of teaching, encouragement and inspiration for the students in the class is required for higher studies. Hence, a perfect teacher-student relationship will be maintained.
 3. The grading system should be 30%(mid-sem) + 50% (end-sem) + 20% (internal assessment). The internal assessment includes assignment for the students, which will be given by the teacher in every classes and presentation, which will be present by the students in each semester in a specific topic relevant to the respective semester.

4. The teacher should be asked to the students about any questions/queries/ doubts/curiosity in end of the each and every lecture. The students also don't hesitate to interact with the teachers for the same.

5. This type of Google form should be shared to the students in end of the each and every semester for giving feedback about teachers. The Google form will be include (a) what did the students like the most about the courses and the teacher? (b) What are the aspects of the teachers and the courses which need improvement? (c) The course was taught well (strongly agree/agree/neutral/disagree/strongly disagree)

1.Make advanced technology a constant in courses offered 2.Re-evaluate goals or objectives 1- Update relevant topics

1. Some relevance topic should be added

2. There should be a monthly seminar on all semesters, this will be beneficial for the upcoming interviews of the students.

1. Project paper should be added every year.

2. Syllabus should be less.

Add some mining related topics (like mining methods, mining plan etc) in syllabus and also add softwares( like Autocad,ArcGis ) uses in practical.

Please add more application course

Syllabus improvement alone can't improve education rather enough skillful teachers are required. The syllabus should modify according to the need of the hours.

Syllabus should be a little more precise and need a little defth as per the entrance examinations are concerned.

Syllabus should contain a little bit depth content and more practical work..

Every thing is well and good , if possible extra classes should be taken so that The result will reflect in cept, even no. Of student increase in qualifying Cuet.

Syllabus should be more practical based.
 Addition of Common entrance related topics.

Internship facility, development skills towards job

Make it easy & short

Make it short and easy

No facility of co curricular activities, Only limited scope for skill development

Added some skill development courses and extra curriculum development courses

Syllabus should contain a research paper in last semester of graduation....and there should be a discussion with teachers of core papers atleast thrice in a week with the students of last year of 4 year Integrated B.Ed course so that it will effectively facilitate these students for higher study in their respective core papers..

Syllabus should be flexible when it needed

Good

Add geophysics part for higher studies

Syllabus should detailed that will lighten the students preparation
Entrance oriented MCQ based questions should be included in Exam
Take sufficient time to complete the syllabus
Provide basic information and state the general learning goals or objective
Provide the basic information and state the general learning goals or objective
Dissertation of MSc students should be done properly.

I am preparing for higher study
One of the well-wishers of Integrated B. Ed. Department.
Good Teaching and learning
I am a recent graduate of M.P.C. (Auto.) college, Baripada with a degree in History.I am looking for an entry-level position where I can use my skills and knowledge to contribute to a group of students and make a positive impact.
lam a recent graduate of M.P.C(Auto) college, Baripada with a degree in History.lam looking for an entry level position where Ican use my skills and knowledge to contribute to a group of students and make a positive impact.
Completed my Masters degree from IIT BOMBAY Currently I'm preparing for UPSC CGE mains exam
I am passionate about my work.
We got education in a lovable way
Ex student
Plz add oceanography and climatology and geophysics in geology core, it will help the students for upcoming entrance exams
Msc 2nd year student at IIT Kharagpur majoring in Geology.

My self Indira priyadarshini behera.passout batch 2018(honours geology). I am grateful that I started my journey from this College. I must say it was my best decision, I ever made so far, to choose this college.now I m preparing for civil services.i personally feel that this college gave me confidence to handle any difficult situation.

Development of teaching methods and appointment of skilled and experienced teachers

My name is yangyaseni patra

I have completed my bsc from mpc autonomous college at the yr 2022, now I'm pursuing my master in geology at fmu, Balasore ,Odisha

Recently working as Panchayat Executive Officer(PEO) in Panchayatiraj and Drinking water Department (PR&DW)

Currently working as a Geologist, in Department of Steel and mines, Govt.of Odisha

I have been always humble towards my teachers who made me upto a level that I am belonging today and looking forward to be a part of autonomous college in future

A Student

To every problem there is a solution

Pursuing Post graduate

I was a student of the Geology Department at MPC Autonomous College (2020-2023). I passed with first class honours with distinction and now I'm pursuing my master's degree. I'm really satisfied with the amount of knowledge I gained from my department and college.

Inclusion of computaional skills would be imperative for those who are planning to pursue higher studies.

I was a student of MPC Autonomous college

Teacher should aware the student about different entrance examination related to their core subject and some times they should invite their alumni which are placed in different institute it will help to motivate the student.

I m very great full being a student of MPC autonomous college

Asst Professor in Govt. Women's College, Keonjhar

Currently pursuing my PhD at IISER Mohali in Earth Science

B.Sc. - Geology Hons (2014-17), MPC (Auto) College, Baripada M.Sc.- Applied Geology (2017-19), IIEST Shibpur

•••

JAM 2017 - AIR 139 GATE 2020- AIR 20 CSIR-UGC NET - AIR 13 UPSC Combined Geoscientist Exam 2022- AIR - 6 OPSC Geologist - Rank 10

Currently pursuing PhD in hydrogeology

Former student of MPC college working on my career with full potential using learning provided by my lectures.

Alumnai of MPC (Autonomous), College, Department of Geology

Everything is good .

Preparing for UPSC civil services

I'm placed in greenko group pvt Ltd.

Thank you for all time support

Shortlisted for interview in OMC

I'm preparing for the cpet.

Clearance of Excellent

.....

.

Myself Satya Prakash Sarangi and now i am preparing for competitive exams...

I am eligible for teacher- educators Post now

Pursuing master degree IIEST SHIBPUR

Bulu Naik,2021,Applied Geology

Srujnsmit Mishra B.Sc - 2014-2017 M.Sc - 2019-2021 Dept - Geology.

Nice collage

Studying

Very good

I am a bsc 2nd yr student

Studing

Nothing... Worst department of MPC

Name- BABITA BINDHANI

Degree joined in MPC autonomous College - PG Now pursuing PhD at IIT KHARAGPUR

Currently working as geologist in department of steel and mines, Odisha.

I have completed my M.Sc from IIEST Shibpur and currently I am preparing for jobs.

#### Х

Working in Aditya Birla Group (Hindalco) as a geologist

1. MSc (Atmosphere and ocean sciences) - IIT Bhubaneswar.

- 2. Junior research fellow IIT Delhi.
- 3. Project scientist (B) Indian institute of tropical meteorology (IITM) pune current position.
- 4. Looking for a PhD in abroad.

Post Graduate Student

Study material average available in college

I was a student of MPC Autonomous College.

It is important to read different authors book

There is nothing specific information about me,

I'm subrat Kumar Sethi Now I'm pursuing M.A. In public Administration in Berhampur University

pursuing B.Ed degree from ANU, AP

I'm preparing for UGC NET and several govt examinations.

BA21-201

My name is Puja Rani bhanja

Geologist in Geological Survey of India

Nothing.

Pursuing masters degree

My self Anupama Naik and now I prepare my self for compititive exams...

Topper and Best graduate of the college, topper of the department in 2023. Perusing Masters in Botany, Ravenshaw university, Cuttack.

Syllabus should contain a research paper in last semester of graduation and for four year Integrated B.Ed students there should be a discussion of honours papers with teachers atleast thrice in a week in last year of 4 year course so that their understanding level will effectively increases that will help in future higher study in core paper....

I m persuing pg in Behrampur University in botany. M glad that my graduation degree was from autonomous college. Almost all practical I was done in my college time is helpful to me nd many things we have already learnt there in MPC autonomous.

Pursuing M.Sc in Botany in Banaras Hindu University. I'm interested in the field of plant physiology and biochemistry for further studies.

I want to go for this subject career

Good

I am a student of four year Integrated B.Sc B.Ed so that I want to give some suggestions on curriculum structure that....there should be more practical work in graduation and atleast 5-6 months of internship period for 4 year Integrated B.Ed students which will strengthen the research ability and teaching strategies of us.. thank you..

I am feeling proud for studied here.

More method room should needed
