                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       AND STATE OF THE PARTY OF THE P                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       Chicaman de la Carla Sandra de l
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     And the second of the second o
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    Search State of                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Publication of results in proper time

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          The activation is also a second and a second                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Cooperation between studients and teachers 
thicks value and virious 
termentals about the provide to the students through camous selection from various 
Notifice. 
It has a cool education system.

| 21. Your three valuable suggestions for over all development of the institution |
|--|
| 773 responses |
| Good |
| Very good |
| Good |
| No suggestions |
| Yes |
| No |
| There is no need for any suggestions |
| Publication of results in proper time |
| Seminar, Annual function, sports |
| sanskriti |
| Good toilet, good water supply and good laboratory |
| Good toilet, laboratory and water supply |
| All ok |
| Drinking water facility may increase, proper clean of toilet |
| More book will be available for students in central library, toilet facilities, result |
| In my point of view. There is enough smart board or digital learning platforms is not available. Teacher student interaction bacame more better. |
| Need to toilet neat and clean |
| We want best author book in our library Exam time table maintained and result published time much late so we wants the result published time table maintained |

my three valluable suggedtins like: - 1-the course fees is quite low and their are a lot of

facilities in this college.

scholarship oppourtunities for the well deserved student.,2-the teachers are quite friendly and teaching is very good .,3-m.p.c autonomous college is best college becouse there are many

+3rd year

Departmental teaching by some guest faculty is poor and library facilities in central and department is very poor if book is present those are out of syllabus.

College infrastructure development is very poor. Drinking water facilities is very scarcity in some department.overall development of college is very poor. The result published by college is very late , which demotivate the students. The behaviour of some staff in college is not good which irritate the students. I am unlucky to study in this low development college, the name is very big that mayurbhanj big college but the overall development of college is not good.there is no proper cleanliness in college campus.

Technology usage, Cultular Activities, Motivatinal Guests.

Toilet should be clean.

1/Please allow us to study inside the library.

2/Increase the number of seats in side library or make one indoor study place for all students those who wants to study.

3/ Please make us know the motiv of the topic we are studying.

Toilet cleaning

- 1- We haven't proper toilets and sanitation facilities.
- 2- The institution have not well ventilate students common room, although we have a sordid common room which is filled with dust and garbage.
- 3- delay of results publication.

Toilet sanitation
Laboratory facilities
Publication of result should be in time

1-Do Exam in Time

2-Publish the results in time

College boundary in the backyard. More tree plantation. 24×7 electricity

Mpc autonomous college

- 1. Enhancing teaching and learning process
- 2. Teaching for Life Education
- 3. Teachers should give advice to his/ her students to well sustaining pattern of present life
- 1.Use better graphics and visual media to engage the students well
- 2. Technology integration and field work
- (1):- Smart class room
- (2):-Good playground
- (3):- Bicycle Stand

- 1. Class room are available
- 2. Put the tree programme arenge
- 3. Central library all books are available

Hygiene and sanitation can be improved

Examination form fill up can be done online through individual students by themselves A space to excel in other areas apart from the respective course

Hygiene concerns

Teaching is good culture program is good and exam is very street

Remove contractual stafff Increase infrastructural facility Provide transportation facility

- 1. Use better graphics and visual media to engage students well. ...
- 2. Try to reach every student and ask for their doubts. ...
- 3. Make teaching a two way interaction

Higher-Education department shouldn't give faculties miscellaneous tasks rather than study. Let them only class activities.

Need for Improvement of administration system like early publication semester result, library, organise skill development programme, provide proper WiFi, fan and network system in college campus.

Requirement of cleaning college campus, class room and washroom.

- 1. Canteen cleaning
- 2. Drinking water supply
- 3. Washroom cleaning

More digital class , more PDF notes , more teaching materials

I

Classes should be digitalized
Toilets and urinals should be cleaned and maintained
Various society should be created

Institution should be conduct proper timetable for classes and teachers should attend the classes in time. Institution should sanitiz and clean girls toilet properly.

A cleaner toilet is needed with proper dustbin and sanitation, Timing of our classes should be proper.

I think all the institution have good Teachers to development our education system

Good teaching quality

Development of department is very essential. Syllabus should be covered in time. There is need teacher's no partiality among the students.

Library, toilet, gym

All the facilities of our college is really very awesome excluding some things, college campus should be neat and clean as it's a very prestigious college and toilets should be hygienic.

All the necessities are fullfil by college authorities properly.

Many more developments needs Pg books needs in library Washroom developments needs

the government should make a proper boundary for the campus as the back side of the boundary is broken and anyone can easily walk into the college campus who doesn't even enrolled in the college, safe water drinking facilities sould be available in every departments and labs

Please Provide Toilet and aqua guard to the students.

Good Teacher in BEd department, library facilities and gym

- 1- Need 4-Year Integrated BA BE.d in SANTALI M.P.C Auto College
- 2- Need Regular Professor in Santali Dept.
- 3- Need Drinking water Tank in Santali Dept.

Exams should happen in time

Our college are very scope of the students and facilities .

keep the bathroom clean and also make proper arrangements of water in the bathroom.

- 1. Declaration of semester results as fast as possible
- 2. Students not using General toilet as because of very dirty as a result boys are going to behind mango trees
- 3. Light and fans in building complex are keep going all night, we have noticed during morning walk
- 4. Please make book available for students, we are quite disappointed with library facilities

I hope our new principal sir will take the institution to a new heights.

- 1- our institute is ideal place
- 2-i feel very proud
- 3- our institution is more beautiful

Yes

A proper boundary of the college,

Availability of toilets and drinking water system in each department.

Result of the exam published within 5month, computer systems needed for desertation,

Properly sanitation of bathroom..

Aqua guard of chill and Normal water should be there in every blocks

And there should be more fansand most of the fans are not working properly so teachers are also facing problems and we students also ..

Library facilities is very disgusting, students are not getting appropriate books and place to reading .if the library is open for every student then it may take a great help for students.

Introduce students to a dedicated advisor.

Go Green

Big Sulute to all(SSS)

The problem of drinking water should be solved in all departments

Distribution of any types card's etc.. quickly before exam, results out soon after 20 day's exam etc....

1.Integrity, 2.Inovation , 3.Team wark

The college develop many future of the students. I am very happy to be a part of this college. Hope the result published disturbances will be solved soon.

Institute needs to provide some outside knowledge and carrier learning rather than only studying.. and we need some teachers to guide students on digital learning like stock market, investment, editing and bit-coin.

My department is excellent.

- 1. Smart boards should be operated for better visualization.
- 2. library should have new books and of good authors and publication.
- 3.aesthetic and more succulent plants should pe planted in the college premises.
- 1. A good text must be read.
- 1. Need good education.
- 1. Good relesion with student and teacher.
- 1. Clean classroom
- 2. Don't disturb phone
- 3. More Practical in perticular subject

Result publish in time

Teacher should Friendly to students

Increase Toilet and Latrin

Semester exam result should be declared after one or two months of exam

Very good

- 1. Improvement on Laboratory equipments
- 2. Friendly relationship with teachers and students.
- 3. The teachers aim should be to make their student's future.
- 1)For PG students departmental library is needed.
- 2) More laboratory equipments and separate classrooms are also needed.
- 3) Separate botanical garden is needed.

Replacement of teachers

Material provide, students and teachers relationship good,gam

1-ors, fasted box are available for common incident.

2-Auditorium

1-no more programs should be held

2-drinking water should be available in every department

Water, toilet,

1.Good teaching 2. Good result 3. Available book in central library

1.good teaching 2.good result. 3.available books in central library

Required of AC in classroom because of excessive heat, and availablity of water in toilet and should be hygienic and smart board for student for better understanding the topic by seeing the photos..

Clean toilet, increasing water supply, more book addition in library

- 1. Betterment of electricity during class time .
- 2. Proper timetable for students.
- 3. More no. of drinking water in college premises.

Santali

Room cleanness Toilet cleanness Drinking water in all departments

- 1.Semester notice should get published at least 15-20 days before the exam.
- 2. There should be more rooms and availability of AC in every room
- 3. Toilet facilities are very poor so please construct more toilets

If I will suggest something, it can be conflict. So rehne dete hai

Conduct various programs Excess availability of library facility Need of bike and cycle stand

1.Availability of drinking water.2.Conducting various program.3.Increase amount of books in department library

Happy, good,life

Proper syllabus related questions

M.P.C. AUTONOMOUS COLLEGE TAKHATPUR, BARIPADA

(Affiliated to MSCB University, Baripada)

SATISFACTION SURVEY REPORT FROM STUDENTS, TEACHERS, ALUMNI AND EMPLOYERS

on

CURRICULUM & SYLLABUS

AND

OVERALL INSTITUTIONAL PERFORMANCE

For the Session: 2023-24

PREAMBLE

The IQAC Cell of the college collects regular feedback through Students Satisfaction Survey (SSS) on Overall Institutional Performance and Curriculum along with feedback on curriculum & syllabus from different stake holders (teachers, alumni & employers). The Feed Back form has been designed by an expert team headed by Coordinator, IQAC and the members of the IQAC. The online feedback consists of items specific to the stakeholders and these are related to 5 points rating scale (1-Excellent, 2-Very Good, 3-Good, 4- Satisfactory, 5- Unsatisfactory) and one item is qualitative in nature for their open comments. Apart from the questionnaire as recommended in NAAC guidelines, this survey also includes questions related to few other aspects like infrastructure, library, admission, result, classroom teaching, Laboratory, Proctorial classes, water supply, administration etc. The survey was conducted during the end of the session through a structured feedback form. A total of 575 students from different streams participated in the survey by filling the feedback form which was allotted to them by concerned HoDs on their Departmental WhatsApp group.

Student's feedback is the effective tool of the Higher Education System to improve the overall growth of any institution as well as students' confidence and self-awareness. Students, when surveyed correctly, can identify potential issues that institutions may not be aware of. Hence, this online feedback Student Satisfaction Survey (SSS) was conducted to assess students' satisfaction on different aspects. Feedback and views being collected from the teachers, alumni and employers on curriculum & syllabus are the catalyzing factor in accelerating the academic scenario keeping in view of pursuing higher study and creating more employability.

1.1 Students Feedback on Curriculum and Syllabus

The existing survey questionnaire consists of 12 questions and 518 students have responded.

Table -1

| Sl. No. | Question | Scale | | | | | | | |
|------------|---|-----------|-----------|------|---------|------|--|--|--|
| | | Excellent | Very Good | Good | Average | Poor | | | |
| 1 | Course Updated enough | 132 | 146 | 166 | 43 | 22 | | | |
| 2 | Opportunities for developing skills in the Curriculum | 96 | 142 | 172 | 61 | 38 | | | |
| 3 | The Course expands your new knowledge and practices | 113 | 156 | 176 | 41 | 24 | | | |

|----|--|--|
| 10 | Name of the Employer & Department /Office/ Organization | 08 Employers participated and justified their suggestion |

Abstract of general remark and suggestion by the stake holder for improving quality of the institutional curriculum & syllabus

Alumni Suggestion

- Need based faculty training programme may be undertaken for revered teaching staff member of the institution to have skill full attire on present syllabus.
- 2. Pre-size emphasis must be given to the practical classes to make it more interesting to the students.
- 3. Skill based training must be added in both B.Sc. & M.Sc. Computer Science courses.
- Amalgamation of entrance oriented mock test series may be adopted in the curriculum to have more number of competitive Exam qualifiers for higher courses.
- 5. Frequent Seminars may be conducted to improve enthusiasm in research for both the students and to preserve research atmosphere in the institution.
- 6. The dissertation / project work in the Master degree curriculum is remained at the level of evaluation nature only. Steps may be taken to improve it and it should be compulsory for the students to have some societal application.

Students' Suggestion

- 1. More emphasis is to be given for practical exposure of the students.
- 2. Need more rooms to be converted to the Smart Class room.
- 3. The gap between ending of examination and result publication must be maintained and publication of result should be done in due time.
- 4. Arrangement must be made for the availability of more Ol Chiki books.
- 5. Courses like Cyber security / Android Development language (Kotlin) may be added in the syllabus of BCA for better students' exposure.
- Machine learning course may be added in the curriculum of MCA as it is the fast growing field in the era of Computer Application.
- Internship time should be improvised in technical courses like MBA, MCA, Computer Science etc.

Teacher's Suggestion

- Regional History topics may be incorporated in the Under Graduate and Master Degree courses of History Core Papers.
- 2. DSE-III paper in Botany needs some specific plant taxonomy part to be added as per applicability.

2. Students Satisfaction Survey (SSS) on Overall Development of the Institution

The existing survey questionnaire consists of 23 question and 575 students have responded.

Table

| SI. | Question | Scale | | | | | | |
|-----|--|-----------|-----------|------|-----|-----|--|--|
| No. | | Excellent | Very Good | Good | | | | |
| 1 | Relevance of the course content to the student's needs | 127 | 167 | 179 | 58 | 26 | | |
| 2 | Availability of books, journals, magazines in the central and departmental libraries | 93 | 137 | 174 | 63 | 92 | | |
| 3 | Usage of Technical aids such as LCD Projector, Laptop, Computer, OHP | 82 | 91 | 174 | 76 | 133 | | |
| 4 | Availability of class room facilities | 132 | 134 | 163 | 76 | 56 | | |
| 5 | Availability of Laboratories facilities | 114 | 125 | 185 | 77 | 57 | | |

ACTION TAKEN REPORT BASED ON SATISFACTION SURVEY ON CURRICULUM & SYLLABUS AND OVERALL DEVELOPMENT OF THE INSTITUTIONAL PERFORMANCE 2023-24

Resolution No. (IQAC) 1454 / Date: 30.05.2024

A meeting of the IQAC Cell under the chairmanship of Principal, Prof. Pramod Chandra Sahu was held in the chamber of the Principal on 30.05.2024 at 3.30 pm to discuss the feedback pertaining to curriculum & syllabus and overall development of the institution as received for the academic session 2023-24 through self-structured questionnaire from the end of different stake holders (students, teachers, alumni and employers). At the outset, Coordinator, IQAC presented the detail statistical report on the basis of survey questionnaire. All the members had participated in the discussion with their views to improve the quality of academic atmosphere and overall development of the institution. After thorough discussion following resolutions were made unanimously.

Resolutions

- The satisfaction survey report (single blind) is to be communicated to the HODs / Coordinators of the department for further improvement as the case may be.
- Multimedia resources like Smart Boards, LCD and other teaching and visual aids with Wi-Fi connectivity are to be provided to enrich students understanding and engagement throughout the classes.
- 3. Worksheets and formative technics are to be used to assess students' understanding and adjust instructional strategies accordingly.
- 4. Hands on learning approach is to be used to increase the curiosity and enthusiasm for learning.
- 5. A more culturally inclusive environment is to be provided to enrich students experience.
- 6. To adapt teaching strategies to meet the changing needs of the students.
- 7. A joint meeting of IQAC Cell and Library Committee will be held on priority basis to discuss and review the books and journals available so as to meet the current requirement of the students'. Preference may be given for subscribing e-Books, different national and international repository.
- 8. Addressing the dissatisfaction expressed by the students over poor condition of toilets and sanitation facilities provided to them, the committee decided to take required measures to maintain cleanliness and proper hygiene.
- 9. The syllabus has been framed in well-organized manner as per the satisfaction survey and if minor changes required for employability aspect, BoS is the appropriate authority

for the revised syllabus. Intimation to this effect will be communicated to the HoDs and Coordinators.

- 10. The proprietor of the college canteen will be intimated to maintain overall good quality in food, hygiene and discipline.
- 11. Overall the college has received positive feedback from the stake holders which is to be improved in the long run.

The meeting ended with a formal vote of thanks to the members and chairperson.
